GOVERNOR DEFENDS  
NATIONAL GUARD  
BODY IN MESSAGE  
OPPOSES TOO SHARP  
A CUT IN FUNDS FOR  
MILITIA.  
"KEEP UP SHARE"Has No Relation to Causes of  
War, Says Blaine in Point-  
ed Admonition.

BY ASSOCIATED PRESS.

Madison.—Governor J. J. Blaine came to the defense of the Wisconsin National Guard today, with an extended special message, which he sent to the legislature when it convened.

The efficiency of the state's military organization was extolled and its continuance at a strength to meet federal requirements was urged by the executive.

This stand of Governor Blaine means death to any attempt at abolition of the guard. It assures a strong and safe protection of the guard against a cut in appropriation that will require the adjutant general to muster out forces already enlisted.

"Not Cause of War."

After disposing of the argument that the state guard lends to militarism and is a provocation of war, with a statement that "the national guard of Wisconsin has no relation to whatever to the causes of war, Governor Blaine went into a detailed consideration of expense of maintaining the organization. He declared the federal government, during the last two years, had failed to provide sufficient funds to meet its obligation toward the 6,700 Wisconsin Guardsmen. The state "has been required to provide funds, in some instances, for transportation of equipment, transportation, or troops," he said.

"This condition," the government continued, "has materially increased the cost of the national guard."

Reduced Automobiles.

Detailing the expense of the state guard, which amounted to \$574,748 in 1922, Governor Blaine asserted that the expenditures for the year ending June 30, 1923, were over \$100,000 less than the prior year, and the expenditures up to June 30, 1923, will be still less.

"It will therefore clearly appear,

he said, that a considerable reduction in the appropriation for the national guard will be effected without legislative action.

In addition to such reduction there can also be a reduction made by the elimination of some auxiliary organizations.

Rail Conditions,  
in Senate Edict

Washington.—The Interstate Commerce commission was ordered to report to congress under a resolution by Senator La Follette, adopted by the senate, the condition of railroads, equipment and what steps are being taken to place it in safe condition.

Democrats Plan  
Statewide Drive

Milwaukee.—About 50 prominent democrats of Wisconsin, in a get-together banquet, adopted resolutions urging the chairman of the democratic county committees in every county of Wisconsin to meet in their localities, and then and all other affiliated with the party together for the purpose of discussing party affairs and perfecting party organization. Thomas M. Kenney, Racine; Judge Martin L. Lueck, Janesville; Joseph Martin, Green Bay; H. A. Moehlmann, Milwaukee, and John F. Doherty, La Crosse, were among those prominent in the gathering.

Ask Poison Booze  
Dealers Be Held

Chicago.—An act making the seller of poisonous liquor guilty of murder in cases where death results, to the purchaser for the presentation to the general assembly was being prepared here by attorneys for the Chicago Typothetae, an organization of employing printers.

Alleged Poisoner  
to Be Examined

Oshkosh.—A commission to determine the sanity of Anna Lenz, charged with sending the poison candy which caused the death of Mrs. Theresa Schneider, mother of eight children, Nov. 21, 1922, was appointed in circuit court here, today. Fred Beglinger directed the members of the commission to make their examination and report "as speedily as possible."

Brick Walls of 36  
Centuries B. C. Are  
Found Among Ruins

London.—Brick walls, believed to have been erected 36 centuries before the Christian era, have been discovered among the ruins recently unearthed at Ur, the Chaldean city, according to a Baghdad dispatch to the Times.

The correspondent quoted L. E. Woolley, leader of the archaeological expedition, as saying the ruins comprise the temple of the Moon God, and his companion, part of which was brought to light in 1918. The discoveries in that year uncovered the bachelor quarters of the God, while the ruins now found are believed to have been his bazaar.

Fragments of stone vases have been dug out, on which there is a representation of the moon and his Goddess worshipers. The calendar is believed to have been done 2,000 years before Christ. The experts also discovered in the ruins some jewelry of the period of Nebuchadnezzar, who rebuilt the shrine in the sixth century. B. C., carefully preserving the original plans.

**\$44.50 AVERAGE  
AT POLAND SALE**

High Quality Consignment at  
First Sale Held by County  
Association.

Rock County Poland-China  
breeders held their first county  
consignment sale in the county pavilion  
Monday afternoon. 45 head sold  
for an average of \$44.50. The  
average price was considerably below  
the value on the stock for few  
better hogs have been put into the  
sale ring in Wisconsin this season  
than the Poland consignment.

The top sow of the sale was Lib-  
erator's Maid, consigned by  
Charles Malby, Beloit, selling to  
John Hendricks, Cuba City for \$75.  
There was a pair of yearlings in the  
ring and both were exceptional  
animals. Malby purchased the pair  
up for high price in Miss Bob  
Chene, consigned by T. F. Shreve.

White the prices paid for this  
type of good stock did not come up  
to expectations, the Poland breeders  
were successful in showing the  
worth of their stock.

There was a crowd of 300 in the  
pavilion during the height of the  
sale and the average was running  
more than \$55 until bidding be-  
came less active.

E. Heberlein, Pomona, Wis.,  
was auctioneer with T. F. Shreve  
as his co-bidder in the ring.  
Among the buyers at the sale  
were Chris McKeown, N. E. Simon-  
son, A. E. Engelke, John McLay,  
W. J. Vance, C. E. Culver, E. O.  
Liggelkow, C. B. Davis, E. W. Rich-  
ards, M. J. Swain, H. W. Shoemaker,

## THREE MORE DURCO SALES ON SCHEDULE

With the Rock County Duroc-Jer-  
sey consignment sale being held in  
the livestock pavilion Tuesday after-  
noon, attention of farmers and breeders  
is being turned to the many sales  
of registered stock this week.  
Thursday, March 1, H. H. Hughes  
and Son will sell registered Durocs  
in the pavilion and have a consign-  
ment of useful animals to be sold.  
This is the first sale of Hughes and  
will be one which will interest many  
farmers. In addition to his own  
stock there are a few head from the  
herd of George Morrison, Evansville,  
in this sale.

On Friday Walsh Brothers, Beloit,  
owning farms on the state line road  
just east of the city, will sell regis-  
tered Durocs. These breeders have

one of the outstanding herds in Wisconsin  
and the sale is expected to attrac-  
t many breeders and farmers  
from both Wisconsin and Illinois.  
On Saturday, March 3, will be held  
a consignment of about 30  
head. Due to bad weather conditions  
and blocked roads the Waldman sale  
scheduled to have been held Feb. 15,  
was called off after a dozen animals  
close to farrowing time, were sold.  
Good values are expected at all these  
sales.

## Chester-White Ass'n Backs Club

Members of the Rock County  
Chester-White swine breeders' orga-  
nization voted to back the new  
Rock county pig club through their  
association. Officers will inspect the  
pigs to be distributed among the  
members to assure good quality and  
uniformity.

Since the Rock county fair at  
Evansville is to be held before the  
Janesville fair, changes probably  
will be made in the club rules.

Showing of junior and other live-  
stock exhibits at the county fair  
will be urged and the winners in the  
junior clubs at the Evansville fair  
will be invited to compete at the  
Chester-White meeting.

Marion to Give  
Sermon on "Gossip"

The Rev. Leland L. Marion, an-  
nounced at the First Christian church  
services, Sunday, that he will preach a  
sermon Sunday morning, March 4  
on the subject, "Gossip; Cause  
Effect, Result." He said he has  
been desirous of discussing the  
subject for some time and decided  
the time has arrived when such a  
sermon should be preached. In view  
of the fact that the Rev. Mr. Marion  
has on several occasions stated pub-  
licly that the difficulties leading up  
to the organization of a Second  
church by a dissatisfied group of  
First church members were the result  
of gossip, members of the congrega-  
tion are anticipating next Sunday's  
discourse with considerable interest.

## JEWS TO OBSERVE FEAST OF PURIM

The feast of Purim, a minor  
holiday in the synagogues, will be ob-  
served Thursday night and Friday,  
by Janesville Jews. It has been found  
convenient to hold the feast in the  
synagogue, which tells about the de-  
liverance of the Persian Jews from  
the plot of Haman. It has come to  
be an occasion for gift-giving in ad-  
dition to its spiritual significance.

Cities having synagogues will have  
special services and local Jews will  
have quiet observances.

POST-OFFICE STILL CASHING STAMPS

War savings stamps, interest on which stopped Jan. 1, are still being cashed according to Postmaster J. C. Coughlin. He has been told it is thought he still has stamp of the 1913 denomination, which are not adding up any interest and which may as well be cashed for their maturity value of \$5, now as later. They are now being cashed out of funds held at the local postoffice, thus eliminating delay.

A wholesome spread that looks right and tastes fine on hot toast and hot breads

The flavor of Jelke GOOD LUCK, when spread on hot toast, is that of a very excellent and very delicious spread. Neither the taste nor the appearance is changed by the heat, except as it melts and combines with the toast in the usual and appetizing way.

On griddle cakes GOOD LUCK is equally satisfactory. While for plain bread GOOD LUCK is the finest spread possible. It tastes like you want it to; looks the way it should; and has plenty of food value.

In short, GOOD LUCK has every best feature of an ideal spread for bread. To serve it on your table is to take advantage of a thoroughly wholesome staple food product. The price is very moderate, quality considered.

# FARM PRICE MEET OPENS IN ST. PAUL

Ten States Represented in Minnesota' Conference to Aid Marketing.

[By ASSOCIATED PRESS.]  
St. Paul.—Production and production costs, marketing, transportation, especially marketing, and other economic problems of the farmer came in for exhaustive discussion and study Tuesday when the Northwest Agricultural Price Stabilization conference opened a two day session here.

Delegates from 10 wheat growing states invited to the conference from the Northwest were present when the Rev. T. M. Long, Minneapolis delivered his invocation and the conference got under way in an attempt to help the farmer solve some of his difficulties.

Col. C. H. March, Litchfield, Minn., chairman of the Farmer-Bankers council of Minnesota, which instigated Tuesday's meeting, delivered an opening address to the delegates who came from Minnesota, Wisconsin, North and South Dakota, Illinois, Kansas, Iowa, Nebraska, Michigan and Montana.

The purpose of the conference, according to the call issued by Governor Preus as chairman, is the resolution of agriculture in the 10 states whose delegates are taking part in the deliberations. Five sessions of the conference are scheduled, three to be held Tuesday and two Wednesday.

She was born in Alsace-Lorraine, France, came to the United States with her husband in 1865, settling at Sugar Creek. She later moved to Delavan homestead, where she died. Surviving are five children, Frank, Fred and Stiles of Delavan, and August, Milwaukee, and George, Hebron, 14.

Mrs. Faby Darr, Springfield, Mo.

Mrs. Faby Darr, Springfield, Mo., sister of Earl Fuzzell, this city, died at her home at 9:30 p. m. Sunday after a five months' illness. Mr. Fuzzell, 319 South Main street, had received word of her critical condition Saturday, and arrived at Springfield five hours before Mrs. Darr's death. Mrs. Darr died last summer, and two little daughters survive. Mrs. Darr was 28 years old, and was well-known here, where she had made frequent visits. Mr. Fuzzell is expected to return to the city Saturday.

Geraldine Maertz, Delavan

Delavan—Geraldine Maertz, a student at the state school for the deaf, died Monday night after a brief illness of bronchial pneumonia.

Geraldine was a pupil of the third grade and would have been 10 years old next month. Though born deaf, she possessed a wonderfully well-modulated voice and was a perfect lip reader.

She is survived by her deaf parents, Mr. and Mrs. Ernest Maertz, Milwaukee, both former pupils of this school, and an older sister, Winona, a member of the ninth rotating class. The child's mother was at her bedside when she died.

The funeral services were held at the institution chancel at 11 a. m. Tuesday and the body was taken to Milwaukee for burial.

PETITIONS FILED

FOR ADMINISTRATORS

Petitions for appointment of administrators in two small estates of Janesville persons who died recently have been filed in the Rock county court. John W. Lutz, died Feb. 18, leaving \$14,250, to which his widow, Helen R. Lutz, is the sole heir.

Margaret K. Kuehne died at the state home for the blind, Thursday, where she has been a teacher many years, left \$5,000 according to an estimate filed in the petition of Miss Anna Oakley, Rock township, for the appointment of an administrator.

Mary M. Stevens' estate enriched the county treasurer's office \$18,85 for inheritance tax paid, the estate the value of which is fixed at \$22,416. Edward J. Stevens, is the executor and sole beneficiary under the will.

## GAZETTE PLATFORM FOR 1923.

Election of a council of seven to back up the city  
manager form of government adopted by  
Janesville in order to insure its efficient opera-  
tion.

Continuous effort to secure that this city may take care of  
many conventions as well as the travelling  
public.

Making the Rock River park, every effort to  
keep the park the property of the city.  
Establishment of free baseball grounds, tennis  
courts and outdoor sports places, bathing  
beaches and all the necessary arrangements  
for Janesville a popular recreation  
place for Janesville.

Clean out the bootleggers and blind tigers and  
enforce the laws.

Establishment of a real estate mortgage com-  
pany to build buildings of homes more  
easily accomplished.

Additional room in the post office by building an  
annex.

A road building program so that the  
farmer and taxpayer will be the greatest  
beneficiary.

Traffic regulations that will reduce reckless  
driving and the number of deaths from auto  
accidents.

## THE MIDWINTER EXPOSITION.

Wednesday there will open at the Coliseum  
in Janesville, an exhibit of the biggest  
award products of the county. Other counties  
hold a midwinter exposition and Janesville with  
its Chamber of Commerce, and the cooperation of  
the business men and others who have become in-  
terested, backed up by the unreserved cooperation  
of the Farm Bureau and kindred organizations  
including the boys and girls in the many junior  
clubs, has arranged this show.

Let it be impressed upon the people thoroughly  
that one of the reasons for prosperity here is to  
be found in the high class of livestock, raised  
and sold in the county. The more we have of  
these high point products, the more prosperous  
will the whole community become. The boundary  
between Janesville and the farming section has  
been almost completely obliterated. It is time  
that it was wiped out entirely. Therefore it will  
be well to see that you do your part and see the  
Coliseum show.

For the seeker after amusement there is a pro-  
gram of fun and frolic with music and all that  
goes with it. This is the first venture for the  
organizations putting on the show and, there are  
enough things to keep anyone amused and interest-  
ed any and all days of the week. The show  
lasts until Saturday night and no person in Janes-  
ville should let midnight come Saturday without  
having been to the Coliseum.

New York is contemplating the necessity of re-  
moving the lamp posts since so many of them  
have been hit by autos lately.

## MEXICO COOPERATES.

Establishment of a fifty mile dry zone and ef-  
forts on the part of the Oregon government to  
stop the drug traffic and smuggling over the border,  
will meet the approval of American citizens.  
It is to be noted that we are constantly being  
asked to recognize Russia but Mexico is proving  
far more worthy of recognition. The effort in  
half of the American laws for prohibition and the  
suppression of gambling, disorderly houses and  
illicit traffic in whiskey and drugs, is the first real  
step for cooperation we have had among the border  
peoples or insular neighbors. Canada with a  
fifty mile dry zone and Great Britain with an  
effort to support the laws of the United States  
against rum running would result soon in a marked  
suppression of criminal traffic.

Maybe England could scare Turkey by showing  
them what came of Old "Fut."

Mr. Brookhart has achieved a little notoriety  
by declaring he would never wear evening dress,  
being one of the plain people. Senator Joe Bailey  
of Texas, was the originator of that idea as a vote-  
getter. Later it was found that John D. Arch-  
bold, then head of the political branch of the  
Standard Oil Company, had sent Mr. Bailey a  
check or two. Mr. Bailey was laid on the shelf  
where he has remained since. All of which goes  
to show that you cannot make a statesman out  
of somebody just because he does not want to  
abide by conventions in dress. "Sleekless" Jerry  
Simpson later in his life wore silk as a foot  
wrapper. It isn't what a man has on but what  
he has in his head that makes him a statesman.

Bandits in Chicago remember Cornelia, the  
Roman matron, who said "These are my jewels."

After reading of the escapade of the man with  
the hooch inside and the rampaging auto outside  
and learning that the moonshine was bought in  
South Janesville, it would seem that the effort to  
clean the poison liquor out of that section has  
not proved successful. Might the attention of an  
official or two be called to that fact in all gen-  
tleness of spirit?

Get ready for the midwinter exposition in  
Janesville.

King Tut was a believer in tombs. In death he  
was a greater person than in life. Coffin after  
coffin, a puzzle box affair, holds his remains. Yet  
from the moment he breathed his last he was  
clay and very common at that.

Every day in every way the Russian workman  
and peasant is getting more unappreciative of  
the great benefits conferred by Mr. Lenin. "We  
had rather be shot down than starve to death,"  
shouted the rioting workmen out of a job at Pet-  
rograd. "The officers had great difficulty in pre-

## THE CITY MANAGER—VI

BY FREDERIC J. HASKIN

Petersburg, Va.—This city has before it for  
1923 a program of improvements which include  
a bridge across the Appomattox river, the erection  
of a junior high school and two grade schools  
the paving of two of the principal streets and  
much other public work. This will cost a little  
more than a million dollars, of which the city will  
pay about seven or eight hundred thousand and  
interested railway companies the balance.

No one can find in Petersburg the slightest ex-  
pression of doubt that the money will be economi-  
cally expended. No one can find any one who  
will say that he believes there will be favoritism  
in the letting of contracts or the purchase of  
supplies. Everybody takes it for granted, now,  
that the affairs of the city will be conducted upon  
sound business lines.

The first thing the city manager did when he  
took office was to employ an accounting firm to  
set up a modern system of accounting for the  
city's use—something that was very much needed.  
Then a central purchasing office was estab-  
lished, through which all city purchases must be  
made.

Under the old system any city employee pur-  
chased where he would at what price he did not  
care, and the price was made large enough to  
reimburse the merchant for the two or three  
months he would be out of his money, for the  
city never paid promptly and could not  
do so under the complicated system of requiring  
each bill to be separately approved by two  
branches of the council.

Under the new system, purchases are made in  
advances in quantity lots, and always after com-  
petition. Bills are paid promptly to take advantage  
of cash discounts. There is a complete check  
on every purchase, and the moment there  
is a change over the market price the city manager  
will be made aware of it.

## JUST FOLKS

BY EDGAR A. GUEST

CHANGEABLE LIFE.  
Laughter and song and dance,  
Sorrow and grief and tears,  
These are the things we change  
Day by day through the years.  
Glad for a little while.  
Sunited for a time by woes,  
And ever the tear and smile,  
Come in their turn, and go.

YESTERDAY'S SKIES WERE GRAY.  
Now they are shining clear;  
Troubled and rough the way,  
Dark with the gloom of fear,  
Danger and doubt and dread,  
Men of the world must know,  
But you shall find ahead  
Life is an older so.

MOURN NOT YOUR PRESENT STATE.  
Dwell not too long with grief,  
Boast not your pleasures great,  
Sorrow and joy are brief,  
Yesterday was, but here,  
Life must be lived today,  
And when the night draws near  
This shall be swept away.

BEAT IT, A LITTLE WHILE.  
Cruel though seems the pain,  
Again you shall some day smile,  
Then shall you weep again,  
Laughter nor grief can stay,  
Sooth must they both be spent,  
Only the soul in the clay,  
Lives and is permanent.

ON THE SPUR OF THE  
MOMENT.  
BY ROY K. MULTRAY

We have looked in vain through the society  
columns for a report of a society event in our  
neighborhood the other night. A couple threw  
a big party and invited a lot of friends, and  
after the guests arrived officers broke in and  
plucked the whole gang because there was a still  
in the house. They are all out on \$500 bail  
each. And still say there is nothing doing in  
society circles this evening.

Just to prove that there is an eternal variety  
of things and that sometimes the right man is  
found in the right place, a party playing the  
Second Grave Digger in production of "Ham-  
let" has been arrested for bootlegging.

We shall always believe that February, the  
second month in the year, was invented by  
some apartment house landlord.

COLD WEATHER.  
Widow Skinner informs us that every egg her  
hens laid in February has froze when she found  
it in the nest. The weather was so cold that the  
widder says she isn't sure whether those eggs  
were froze before the hens laid them or not.

Paula has grown weary of jazz bands. We  
have also grown weary of them, but it doesn't  
do us any good.

We do not know of an actor who is not will-  
ing to admit, in the language of Coue: "Every  
day and in every way, I am better and better."

The shortest month in the year was just as  
expensive as the long ones.

Petroleum has been discovered in the Philippines.  
But the oil will not serve to quiet the  
troubled waters of the Pacific.

"Eat pickles and you will be beautiful," says  
the National Pickle Pickers' Association. We  
have known some stenographers to eat pickles  
every noon for 10 years and it never helped them  
a bit.

We always believed Jack Dempsey was cour-  
ageous and now we know it. He has turned  
down a movie offer of \$50,000.

Senator Capers' divorce law would prevent  
marriage of insane persons, but what man can  
be said to be perfectly sane during his court-  
ship?

New York street cleaner has inherited \$40,000.  
In order to play true to type, he probably will  
take a day off and go and watch the other street  
cleaners at work.

Cable says waiters in Paris are now dressed  
in green "to avoid mistakes." But we know  
some waiters here who could make mistakes if  
they were dressed in pink.

## Who's Who Today

COUNT CARLO CALVI DI BERGOLO.

Another love match has been announced by  
the royal circles of Europe. The example set by  
the English princess is now being followed by  
Princess Yolanda di Savoia. When their Italian  
father died, Count Carlo Calvi di Bergolo, the tongue of  
all the gossip of Rome, was at once quieted. Ever since  
the war, a possible bridegroom for the princess had been  
talked over.

The count however, in spite of the princess's quiet flirtation  
with him, was not to be denied. They made  
their first appearance in Paris in 1847, when they said they had come from  
lower Egypt and had been driven to take refuge in Europe from the  
Saracens, and had recently left Bohemia.

Q. HOW MUCH HAIR DOES A  
INDIVIDUAL BREATHES IN A DAY?  
A. It has been estimated that a  
person at rest inhales daily nearly  
700,000 cubic inches of air. This esti-  
mate is a basis for planning the  
size and ventilation of public halls.  
A person working would inhale a  
larger amount of air.

Q. IS THERE A POTION FOUND FOR  
EX-PRESIDENTS?  
A. The Carnegie Corporation, of  
New York made the following official  
announcement Nov. 21, 1912: "Pres-  
tension has been made through this  
corporation for a pension for each  
future ex-president and his widow  
unmarried, or \$25,000 per year as long  
as these remain unprovided for by  
the nation, that they may be able to  
spend the remainder of their lives  
devoted to the public welfare of the  
public free from pecuniary care. Pen-  
sions will be promptly offered to  
the ex-president and their widows  
as soon as application will be re-  
quired from them."

## NAME EIGHT FIVES TO TAKE PART IN WHITEWATER MEET

### Busy Man's Sport Page

By FRANK SINCLAIR

[SPECIAL TO THE GAZETTE]  
Whitewater—Selections of teams that will compete in the Wisconsin interscholastic athletic association district basketball tournament to be held here Mar. 8, 9 and 10, were given out Monday night. The schools that have been chosen are:

Beloit, Elkhorn, Evansville, Janesville, Madison Central, Milton Union, Palmyra and Stoughton.

All of these teams, it was announced, have accepted.

According to the rule of the board of control of the W. I. A. A. that teams shall be selected from the top and bottom ones paired off by random, the first games will bring Beloit and Stoughton together, Elkhorn and Palmyra, Evansville and Milton Union and Janesville and Madison Central. The meet will start Mar. 8 at 2:30 p. m. There will be two games of the first round and two the first night, the teams to play at these times to be announced later.

Each Team Plays Twice.

The losers of the games of Mar. 8 will play the next morning. The winners of the opening day will play on the afternoon of Mar. 9 and losers of the night of Mar. 9 winners and losers of the night of Mar. 10.

Play will be held at 2:30 p. m. on Mar. 10. By this arrangement each team will play the other twice. Afternoon games start at 4:30 and night contests at 7:30. They will be held in the Whitewater normal school gymnasium.

While Evansville is hoped to win the tournament, the record of its teams is showing the season there are some who look to Janesville as high's record of recent games is making the latter a "dark horse." In the first day's games, Evansville is expected to defeat Milton Union, having twice trimmed that team this season. Janesville has a chance to beat Milton Union based upon the elimination score by which Beloit defeated the Capital city outfit, 14 to 9, and Janesville having split with Beloit.

Schenke Picked as Referee

(Elkhorn, with no defeats this season, should clean up Palmyra, Stoughton is looking upon to trim Beloit.

Schenke of Lodi has been chosen to referee the contests. Other officials will be named later.

SEVEN TEAMS PICKED

FOR STEVENS POINT MEET

Stevens Point—Seven teams which are sure to play in the district high school basketball tournament here were named Monday. They are Stevens Point, Marshfield, Stevens Point, Waupaca, Wautoma, Westfield and Wisconsin Rapids. The eighth team will be either Almond or Mosinee, an elimination contest between the two having been ordered.

## Special Milk Now Comes Only From the R. K. Overton Herds

After months devoted to the patient investigation of a large number of better farms, buildings and herds, we have finally made arrangements with Mr. R. K. Overton to furnish the full amount of our special milk each day.

Mr. Overton's herd consists of sixty of the best Guernsey cattle which have been under Federal and State supervision for the last three years, and which have been tested for T. B. regularly during the last six years.

The butter fat test per 100 pounds of milk has, over a long period, regularly been from 4.4 to 4.8 with a consistent average of 4.7 for the year 1922.

For many years, Mr. Overton has been an admirer and breeder of Guernsey cattle and has, for a long time, been president of the Rock County Guernsey Ass'n.

We feel with Mr. Overton that from a quality standpoint this milk is the very best obtainable—there is none better.

From a health standpoint, we feel with Mr. Overton, that no amount of care is too costly to prevent the possibility of contagion, and in this case every possible care has been taken.

We unhesitatingly put the seal of our approval on this milk, and we unhesitatingly recommend it to our customers as being the very best milk in this great dairy county.

The price will be the same as special milk has been heretofore.
